

Comprehensive Payroll
solution for all types of
Canadian business

GrandMaster Suite - Payroll

GrandMaster Suite's Payroll module is the perfect in-house solution that integrates Payroll, Human Resource, Employee Scheduling, Time Keeping and Electronic Funds Transfer modules into a powerful multi-user management tool.

Customizable and Tailored to Your Business

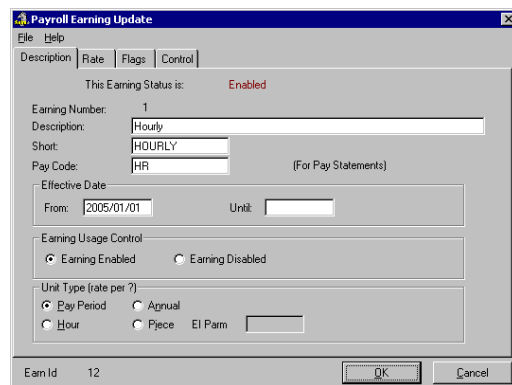

Customize your payroll to meet your company's precise needs. For example, you can calculate a semi-monthly executive payroll, a weekly union payroll or a teacher's ten pay period payroll. Simply assign employees (who are set up globally) to one or more payrolls.

The Payroll module also provides options that allow you to share earnings, deductions and accumulations across multiple payrolls. This will provide you with consistent processing, along with the ease of reporting and a truly customized approach.

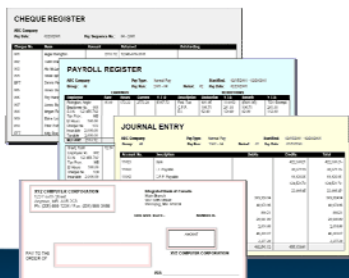

200 Earnings, Deductions and Accumulators

Calculate up to two hundred deductions and benefits per employee - more than one hundred common pre-defined deductions/benefit calculations are included to get you started.

Automatically calculate additional items such as vacation pay, sick entitlements, statutory holiday pay, banked time and seniority levels. Calculate based on earnings, deductions or function-based methods.

Complete Payroll From Start to Finish

Everything you need for the entire payroll cycle in this powerful module. From multiple payrates and employee positions, to account allocation control to EFT and multiple employee bank accounts. GrandMaster Suite Payroll will handle all of your detailed company requirements.

"Each year, CanPay payroll software is used to produce more than 7.5 million pay cheques and EFTs all across Canada."
